

How can I read books at home?

There are several choices for reading awesome books this year:

1. SORA

There are thousands of fabulous eBooks on this site for you to read on your iPad, Chromebook, or any other device you may have at home. Select this icon on your

school-issued iPad and login with your district username and password. Then search for a book and begin reading it right there on your device!

2. myOn, EPIC, or Tumblebooks

These are more fantastic resources for eBooks. You classroom teacher will send more information home on how to access and use these awesome reading sites. These are all sites where you can read the book right on your school-issued iPad or other device.
